Ara:

I checked with the plan checker and went over the schedule and the fees. As it turns out, there are two B-permits active and related to the project. One is solely for the Street Lighting work (BD002897/BT002897). The total deposit to date for this B-permit is \$14,259.55. Of this, only \$7,908.89 has been charged.

The second B-permit (BR003504) has gone through a few cycles of review. It has a total deposit to date of \$17,022.00. Of this, \$14,023.98 (as of Aug 8) has been charged.

So the total deposit to date is \$31,281.55. With less than \$24,000 charged to date. If the applicant feels these figures are in error, please have him/her contact me and I will set up a meeting with our B-permit Group.

As far as schedule, the plan checker gave the plans to the section head who will then check them before they are returned to the private engineer.

If you wish me to send info to Dave Lara, please let me know.
